## **Supreme Court Upholds Affordable Care Act ACA Obesity Prevention Measures Unchanged**

*Statement of the CEO Action Fund  
on the Issuance of the Supreme Court's Ruling Upholding the Affordable Care Act*

Today, two in three Americans are overweight or have obesity. Beyond the devastating health tolls this takes, obesity costs our country some \$200 billion a year, and that number is growing exponentially. At a time when the nation faces an unprecedented health and economic crisis in obesity, the Affordable Care Act provides clinicians and communities alike with dedicated funding for community efforts to combat obesity, and it vastly improves access for all Americans to clinical obesity prevention and treatment services. The important obesity prevention and treatment measures established by the Affordable Care Act will continue.

### **About the Campaign to End Obesity Action Fund**

The Campaign to End Obesity Action Fund is dedicated to federal policy changes that can reverse one of America's costliest diseases. The Campaign convenes leaders from industry, academia, public health and associations to speak with one voice for measures to reverse the obesity epidemic and promote healthy weight in children and adults.
